***Is it possible to search a calendar of SSA “days” in order to schedule future appointments for my child?***

Yes! Visit the Academy calendar on the SSA website:

<http://www.shadysideacademy.org/about/calendar>

Or the school-specific calendars:

- Junior School: <http://www.shadysideacademy.org/junior-school/junior-school-calendar>
- Middle School: <http://www.shadysideacademy.org/middle-school/middle-school-calendar>
- Senior School: <http://www.shadysideacademy.org/senior-school/senior-school-calendar>

Below the calendar are tools to “Filter the Calendar” and “Search the Calendar.”

To see the calendar with the cycle days for your child’s school:

1. On the all-Academy calendar, locate the “Filter the Calendar” tools and deselect the calendar(s) you do not need/want to see, leaving just the Junior, Middle, and/or Senior School calendars and click “Update Calendar.”
2. The Cycle Days are posted on all days when SSA in session.

***Is there a PDF calendar for the Senior School? I found one for the Middle School and the Junior School, but can’t find one for the Senior School.***

The Senior School calendar is not available as a PDF. There are too many activities and events to maintain a PDF calendar and all events are posted on the website calendar: <http://www.shadysideacademy.org/senior-school/senior-school-calendar>

While the Junior and Middle School PDF calendars are a great, handy resource, dates and events may change. Please be sure to check the web calendar for updates.

Junior School: <http://www.shadysideacademy.org/junior-school/junior-school-calendar>

Middle School: <http://www.shadysideacademy.org/middle-school/middle-school-calendar>

***Is there a three-school calendar that would consolidate events in multiple campuses?***

Using the website calendar filters, you can select the Junior School, Middle School and Senior School calendars to display all of the events happening at all three schools. The All-Academy Academic Calendar PDF contains major school breaks and events for all three campuses.
